25X1 11. [ ] Attempted to meet with Representative Porter Hardy, Jr. (D., Va.), House CIA Subcommittee of Armed Services, but he was in a meeting and would be chairing a Subcommittee meeting during the afternoon. He will be available however, before the meeting of the Armed Services Committee tomorrow morning. I will attempt to see him at that time.

25X1 12. [ ] Met with Mr. Philip W. Kelleher, Counsel, House Committee of Armed Services, as a follow-up to the last CIA Subcommittee briefing and brought him up to date concerning New Soviet Aircraft at the Moscow Air Show and Soviet Swing-Wing Aircraft.

25X1 13. [ ] Mr. J. G. Sourwine, Senate Internal Security Subcommittee staff, inquired if the Agency could procure from Scotland Yard an apparent report it has on Stokeley Carmichael's recent ten-day visit in Britain. I checked into this with Mr. Karamessines and Sourwine was advised that since an American citizen was involved, this was not a matter in which we could be of any assistance.

25X1 14. [ ] Talked with George Murphy, Joint Committee on Atomic Energy staff, who indicated that the earliest release of their statement would be Wednesday indicating that several Committee changes had not been cleared with the Chairman. He again promised to alert us as soon as a decision is made and make available multiple copies of the precise text of the statement.

25X1 15. [ ] Mr. Woodruff, Senate Appropriations Committee staff, called inquiring if Agency representatives could be available to discuss budget with the Subcommittee possibly this Thursday. I indicated that this probably could be arranged. I also inquired when he would have more concrete information. He indicated that he would contact us just as soon as possible. Mr. Earman and [ ] have been alerted to this and we will check the situation again tomorrow.
